

CROSSING THE CIRCLE

14 DAYS /12 NIGHTS ON BOARD

Ushuaia to Ushuaia | 2021-22 Season

We chart a course through the Drake Passage and along the Antarctic Peninsula with the ambition of crossing the Antarctic Circle. The farther south we go, the more sea ice we are likely to encounter, along with incredible wildlife and awe-inspiring scenery. Should we arrive at 66°33'S, we'll join the small band of explorers that can claim they have made it this far south.

HIGHLIGHTS

- Visits to some of the most stunning bays and channels of the Peninsula
- A valiant effort and anticipated success in reaching 66°33'S
- Magnificent wildlife encounters with penguins, whales, seals and seabirds
- Zodiac cruising amongst colossal glaciers and massive icebergs
- Potential stops at active scientific bases and historical sites

Heading south across the Bransfield Strait, we sail towards the Antarctic Circle. From our most southern point (south of the Antarctic Circle), we'll start making our way back north, cruising through the narrow channels of the Antarctic Peninsula.

Heading north, we'll explore any number of picturesque bays and famed harbors, maneuvering through majestic channels as we travel the wildlife-rich waters. There are great opportunities to stop at several active scientific bases and historic landing sites as we spot numerous species of penguins, seals, and whales along the rugged coastlines and in the sea.
