

WELCOME TO THE FLEET

The Discoverer

The Discoverer brings together everything we value in a small expedition ship – intimate scale, strong ice capability, and a true focus on exploration, all enhanced by refined interiors, expanded comfort, and a more contemporary onboard experience.

Why We Love It

INTIMATE SIZE

Like the Seaventure, the Discoverer carries a limited number of guests, preserving the small-ship atmosphere that allows for flexible landings and meaningful wildlife encounters.

What makes the Discoverer special is how it combines true expedition capability with a more refined onboard experience. Upgraded public spaces, elegant lounges, and thoughtful design create a welcoming atmosphere that remains expedition-first, simply with a little more polish.

ELEVATED COMFORT IN THE POLAR REGIONS

The Discoverer has undergone significant refurbishment in recent years, bringing a fresh and contemporary feel throughout the ship.

Compared to the Seaventure, guests will notice contemporary cabin design, upgraded bathrooms and furnishings, brighter public spaces, and a refined dining experience. Wellness facilities including a spa and fitness center add another level of comfort after a day exploring glaciers, wildlife, and remote coastlines.

BUILT FOR TRUE EXPLORATION

The Discoverer remains a true expedition vessel at heart. An ice-strengthened hull, a fleet of Zodiacs for shore landings and wildlife cruising, and expansive outer decks - including a wrap-around outer deck on Deck 6, ideal for wildlife viewing and photography - make the ship perfectly suited for exploring remote polar environments.

This expedition capability allows guests to spend more time experiencing the landscapes and wildlife of the polar regions and less time simply observing from afar.

BOUTIQUE ATMOSPHERE

Discoverer offers a warm and welcoming atmosphere that feels more like a boutique hotel at sea than a traditional cruise ship. Comfortable lounges, inviting gathering spaces, and panoramic views throughout the ship create a relaxed environment for connecting with fellow travelers and the expedition team.

With a limited number of guests on board, life on Discoverer remains personal, friendly, and authentically expedition-focused.

Life On Board

Between landings, wildlife encounters, and Zodiac cruises, Discoverer's welcoming public spaces offer comfortable places to relax, learn, and connect with fellow travelers. Designed with panoramic views and inviting interiors, these spaces combine exploration, enrichment, and relaxation throughout your voyage.

LECTURE THEATER

The Lecture Theater is the center of the ship's educational program. Here, members of the expedition team share fascinating presentations about wildlife, history, geology, and the regions you explore, helping deepen your understanding of the polar world.

OBSERVATION LOUNGE

With large panoramic windows and comfortable seating, the Observation Lounge is one of the most popular gathering places on board. It's an ideal spot for wildlife watching, enjoying a drink, or reflecting on the day's adventures while taking in the surrounding landscapes.

RESTAURANT

The ship's restaurant offers a warm and welcoming setting for meals inspired by international cuisine. Guests gather here for breakfast, lunch, and dinner, sharing stories from the day's explorations while enjoying carefully prepared dishes and attentive service.

WELLNESS CENTER

After a day exploring ashore, the Wellness Center offers a peaceful space to unwind. Facilities include a sauna, steam room, and treatment room where guests can relax and recharge before the next adventure.

FITNESS CENTER

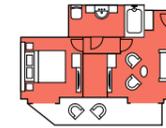

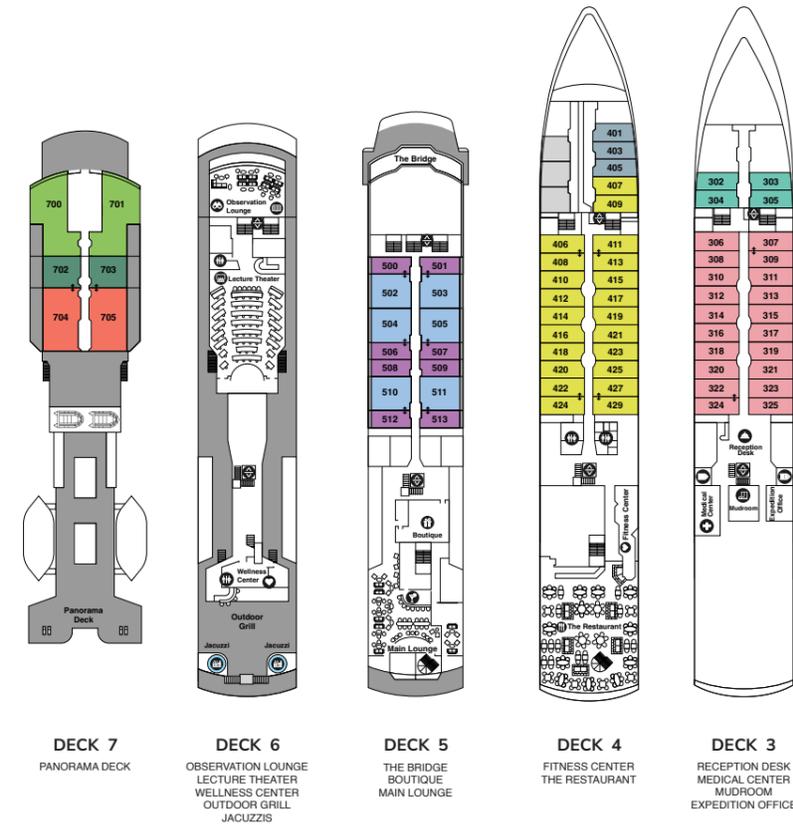

Guests wishing to stay active during the voyage can make use of the Fitness Center, equipped with modern exercise machines and ocean views to accompany your workout.

OUTDOOR JACUZZIS

The ship's outdoor jacuzzis offer a unique way to relax between excursions. Enjoy the warmth of the whirlpool while surrounded by the spectacular scenery of the polar regions.
